

Road states across selected time layers

a Selected time layers

b Construction key

Movement

Along a road, later time

$$(i, t) \rightarrow (j, t + \tau)$$

Waiting

Same node, one step

$$(i, t) \rightarrow (i, t + 1)$$

Saved arc excerpt

Pale arcs: retained movements and waits in this local slice.

30 seconds per time step.
Coordinates are schematic.
